

Ipsidy and IECISA, a Gfi Group Company, Announce Strategic Partnership to Deliver Mobile Facial Biometric Identity Solutions

July 20, 2020

LONG BEACH, NY and LIMA, PERÚ, July 20, 2020. – Ipsidy Inc. (authid.ai) [OTCQB: IDTY], a leading provider of secure, mobile biometric identity solutions, including Identity as a Service (IDaaS), and IECISA, (www.iecisa.com) a technology consultant specialized in delivering digital solutions and value-added services to digitally transform companies and public entities through technological innovation, have signed a strategic partnership agreement to offer innovative identity solutions, enhanced with verification by RENIEC, the Peruvian National ID Registry.

Across the Peruvian region—where almost 60% of the population have access to the internet—digital transformation efforts are expanding rapidly across the financial services, ecommerce, telecom, healthcare and public sector markets. With an increase in remote interactions, however, the risk of cybercrime and identity fraud has grown, and thus accelerated the need for secure digital tools to help enterprises seamlessly verify identity across the customer engagement.

To meet that demand, IECISA Perú will add Ipsidy's RENIEC-connected IDaaS platform and innovative mobile facial biometric solutions to its product suite. Proof by Ipsidy offers a seamless identification experience for remote customer and employee onboarding with quick mobile identity document capture, liveness confirmation and facial biometric matching of a selfie to the credential photo. Proof confirms the rightful owner of a credential is present by validating the biometric identity against RENIEC's own national records. For "know your customer" (KYC) processes, new customer account openings as well as employee on-boarding, Proof provides an efficient, secure and trusted solution for financial institutions, telco's, money transmitters, medical providers and other businesses and government agencies to replace existing manual and in-person identification processes.

To combat identity fraud during valued digital transactions and to know with biometric certainty that it's really your customer requesting an account change, transferring funds or chatting online with customer support, Verified by Ipsidy provides a strong, mobile multi-factor authentication solution, rooted to the trusted identity sources obtained during the Proof process. With Ipsidy's solutions, IECISA's clients and their users can enjoy a seamless identity service that offers the highest level of identity assurance and establishes mutual trust between all parties.

"We are delighted to partner with IECISA Perú to offer our solutions in Peru and the region," said Philip Kumnick CEO of Ipsidy Inc. "IECISA Perú is well known for their strength and market leadership in verticals requiring real-time identity authentication, and we believe that our combined solutions can reduce the risk of identity fraud and provide significant value to their client portfolio."

"With the addition of Ipsidy's identity platform services to our suite of technology solutions, IECISA Perú is excited to be an early leader in the Peruvian and regional markets," said Carlos Garcia of IECISA Perú. "We look forward to bringing these much-needed solutions to our clients and meeting the demand for services needed to build trust in an online digital world."

About Ipsidy

Ipsidy Inc. (OTCQB: IDTY) authid.ai is a provider of an Identity as a Service (IDaaS) platform that delivers a suite of secure, mobile, biometric identity solutions, available to any vertical, anywhere. In a world that is increasingly digital and mobile, our mission is to help our customers know with biometric certainty the identity of the people with whom they are engaging. We provide solutions to everyday problems: Who is applying for a loan? Who is accessing the computer system? Who is in my lobby? Identity creates trusted transactions. Ipsidy's solutions embed authenticated identity and event details with a digital signature and participants use their own mobile device to approve everyday transactions. Our platform delivers identity solutions that work great on their own but even better together.

Ipsidy is headquartered in New York and has operating subsidiaries: MultiPay in Colombia, www.multipay.com.co; Cards Plus in South Africa, <https://cardsplus.co.za/>; Ipsidy Enterprises in the U.K and Ipsidy Perú in Perú. Further information on Ipsidy can be found at authid.ai. If you wish to join the Ipsidy partner network and resell our suite of mobile biometric solutions, contact Ipsidy at sales@ipsidystaging.wpengine.com.

Notice Regarding Forward-Looking Statements

Information contained in this announcement may include “forward-looking statements.” All statements other than statements of historical facts included herein, including, without limitation, those regarding the plans and objectives of management for future operations of both Ipsidy and its business partners, future sales, product and service launches with customers and new initiatives and customer pipeline, financial position and business strategy are forward-looking statements. Such forward-looking statements are based on a number of assumptions regarding Ipsidy’s present and future business strategies, and the environment in which Ipsidy expects to operate in the future, which assumptions may or may not be fulfilled in practice. Implementation of some or all of the new services referred to is subject to completion and testing. Actual results may vary materially from the results anticipated by these forward-looking statements as a result of a variety of risk factors, including the risk that implementation, adoption and offering of the service by customers, consumers and others may take longer than anticipated, or may not occur at all; changes in laws, regulations and practices; changes in domestic and international economic and political conditions, the as yet uncertain impact of the Covid-19 pandemic and others. See the Company’s Annual Report Form 10-K for the Fiscal Year ended December 31, 2019 filed at www.sec.gov for other risk factors which investors should consider. These forward-looking statements speak only as to the date of this announcement and cannot be relied upon as a guide to future performance. Ipsidy expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained in this announcement to reflect any changes in its expectations with regard thereto or any change in events, conditions or circumstances on which any statement is based.
