## Ipsidy to Attend Money 20/20 and ISC East Conferences

October 2, 2018

LONG BEACH, NY, October 2, 2018. – Ipsidy Inc. (authid.ai) [OTCQX:IDTY], a provider of secure, biometric identification, identity management and electronic transaction processing services, today announced it will be exhibiting at the following conferences in October and November 2018:

**Money 20/20 USA** on October 21-24, 2018 at Sands Convention Center in

Las Vegas, NV, Booth 1179

Money 20/20 brings together the most powerful innovators to collaborate and create a simpler and more inclusive financial system for individuals, businesses, and society. Industry leaders will come together to share their knowledge, seek new opportunities, challenge the status quo, and disrupt and enhance the future of money. Ipsidy will be exhibiting at Booth 1179.

**ISC East** on November 14-15, 2018 at the Javits Center, New York, NY, Booth 573

As a new member of the Security Industry Association (SIA), Ipsidy will be exhibiting at ISC East, an SIA sponsored event and the Northeast's largest security industry event. This event brings together over 200 leading security brands ranging from video surveillance and access control to unmanned security. Ipsidy will be sharing Booth 573 with Ayonix, a facial recognition company. Together we will showcase Access by Ipsidy and our forthcoming integration with Ayonix's camera-based facial recognition technology to offer enhanced biometric access management.

Download the Ipsidy mobile app on the [App Store](#) or [Google Play](#) to your mobile phone and add a test account by visiting <https://mfademo.authid.ai/> and running your own demo. You can also visit <https://authid.ai/solutions/access> to learn more and schedule a demo. System integrators and other commercial and residential building management service providers should contact us to learn more about our reseller programs.

### About Ipsidy®

Ipsidy Inc (OTCQX:IDTY) authid.ai is a provider of secure, biometric identification, identity management and electronic transaction processing services. Ipsidy is headquartered in New York and has operating subsidiaries: MultiPay in Colombia, [www.multipay.com.co](http://www.multipay.com.co); Cards Plus in South Africa, [www.cardsplus.co.za](http://www.cardsplus.co.za); and Ipsidy Enterprises in the U.K. Our identity transaction platform creates a trusted transaction, embedding authenticated identity and event details with a digital signature and using a participant's mobile device to approve everyday transactions. Our platform offers biometric and multi-factor identity management solutions which support a wide variety of electronic transactions. We believe that it is essential that businesses and consumers know who is on the other side of an electronic transaction and have an audit trail, proving that the identity of the other party was duly authenticated. We continue to enhance our solutions to provide our customers with the next level of transaction security, control and certainty over everyday transactions. Further information on Ipsidy can be found at [authid.ai](http://authid.ai) or contact us at [sales@ipsidystaging.wpengine.com](mailto:sales@ipsidystaging.wpengine.com).
